

Simulating JWST Mosaic Imaging Observations

E-poster

Anton Koekemoer

- **Co-authors:** Alicia Canipe, Dan Coe, Matteo Correnti, Bryan Hilbert, Martha Boyer, Nor Pirzkal, Armin Rest, John Stansberry, Leonardo Ubeda, Brad Whitmore

Space Telescope Science Institute

Baltimore, USA

Galaxies, Distant Universe

- Imaging
- Mosaics
- Galactic Structure
- Deep Field Surveys

Future Impacts to the field

- Enabling observation planning
- Injecting artificial sources to test observational selection effects
- Providing testbed for new source detection algorithms
